GUIDE
Indice Commercial
Canadien

2ème PARTIE

Commençant à la page 195, sur papier bleu, se trouvent les noms et les adresses des manufacturiers.

3ème PARTIE

Commençant à la page 347, se trouve une liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.

Le mot principal en Anglais est ordinairement placé le premier, suivi d'une phrase le modifiant, i.e., Quincaillerie, de construction: Cuir, coupe de bottines et chaussures. Mais, quand l'inversion ne semble pas faisable le mot modifiant est placé le premier, et est ainsi arrangé dans la liste alphabétique, i.e., Mécanisme de piano —Piano hammers; Shoe packs—Chaussures en cuir tanné à l'huile. En cas de doute on peut essayer les deux méthodes. Quand deux noms ou plus sont communément employés pour le même article, nous avons essayé de donner des explications vis-à-vis. Quand on desire l'adresse de la rue, voir la IIème Partie, commençant à la page 195. Les noms des fabricants qui font ou sont intéressés dans le commerce d'exportation sont indiqués par un asterisque*.

4ème PARTIE

Commençant à la page 747. Section Spécial indiquant les noms des exportateurs principaux des produits de la ferme, etc.

5ème PARTIE

Commençant à la page 755 sur papier bleu. Section de Traduction—(a) Français, page 755. (b) Espagnol (édition limité), page S-1. Les noms des articles donnés dans l'Indice Français et Espagnol sont suivis par leur équivalent en anglais, et l'équivalent en anglais se trouve placé alphabétiquement dans la IIIème Partie.

The Canadian Manufacturers' Association was incorporated by Act of Parliament in 1902.

ELECTRONICS
... is changing Your World!

EVERY GENERAL
ELECTRIC RADIO
IS AN
Electronic
INSTRUMENT

TODAY a new science, the science of electronics, is helping to change your world. Electrons, tiny particles of pure electricity, are playing a big part in shaping the world's destiny. Through the medium of electron tubes—brothers to the familiar radio tube—they are today directing the course of mighty warships, carrying the voices of fighting men through space, aiming guns at targets hidden from sight by darkness, fog or distance.

Some day victory will be won. Then the big peacetime job of electronics will begin. You will have a radio that knows no static. You will have a new protection from fire and other dangers. Your doctor will learn new facts about the human body that may help him save your life.

To answer your questions regarding the nature and scope of the new science of electronics, Canadian General Electric offers you a wonderful booklet, "Electronics — a New Science for a New World"— authoritative, illustrated in full color. Mail the coupon now.

THROUGHOUT THE WORLD — our troops must have the best possible food on which to fight. They get it with canned food. It provides them with balanced, nutritious meals, saves shipping space, eases the supply problem.

No more tin plate for many of you . . . means more "square meals" for them

ONLY THE BEST possible food is good enough for our troops. They must have this food in greater and greater quantities. That's why many items will not be packed in tin plate, as the war goes on.

This saves many tons of tin that will go into cans in which more food for carrying on the war will be packed. Food for our fighting forces. Food for civilians behind the lines. (Tin cans, as you may know, are the perfect containers for processed foods.)

So—until the war is won, you'll have to do without the convenience, beauty, and traditional sales appeal of many tin-plated packages.

Many substitute packages may be offered to you for your products. They may not be so good as the familiar *tin* package, but they'll be the best you can get while there's a war on.

And you can do your part by using your business imagination and capitalizing on these substitute containers. Adapt them to your filling lines. Sell them to your trade. Explain to your trade why these substitutes are necessary for the duration.

REMEMBER: The Government is doing a great job . . . for you, for all of us . . . in controlling the tin supply and directing it where it will do the most good.

In our own laboratories, research on containers is going steadily forward. This research promises not only to improve present containers for your use during the war, but also to develop even better containers of all kinds for your use after the war.

AUTOMATIC OIL CONDITIONERS

Kralinator is the only Oil Conditioner that not only traps coarse dirt, grit and other abrasives, and eliminates them from the oil, but also chemically amalgamates into larger particles and removes the microscopically small impurities which pass through any ordinary filter. Kralinator thus maintains the lubricating qualities of motor oil indefinitely, effecting savings in operating costs, and reducing wear and tear in motors. Kralinators have proved their value on wartime vehicles on every front, as well as on thousands of cars, trucks and tractors in Canada.

SPECIALISTS IN INJECTION MOULDED PLASTICS

Dozens of industries are finding plastics the solution to their production problems. In many cases plastic parts are better and cheaper than metal. In other applications, metals are still the only satisfactory material, either alone or in combination with plastics. Our engineers know the limitations as well as the advantages of plastics.

Where there is any doubt about the reliability of plastics in any particular application, we prefer to advise caution rather than risk the worthy reputation of plastics.

Whether you have an immediate or postwar problem, why not get the expert advice of a "Reliable Plastics" engineer now?

This positive-position lock has an efficiency that completely over-shadows the old-type caster brake. Out of the way under the truck, yet always accessible — a simple downward pressure on the Foot Lever sets the "shoe" and a slight upward pressure releases it. Will 1944 Bring Us Victory?

The news from all fronts is so good we are inclined to be too optimistic.

There is one battle the Allies must and will win, the last battle.

Let us not let down on the wonderful co-operation that has been shown by all Canadian Manufacturers till the Victory is ours.

The above cut is the new plant for the manufacturing of Steatite Insulators.
